

Mega Wear-Flex™ Kit **NEW** Adhesives

The complete application kit for rubber repair, or any material that undergoes vibration or expansion/contraction movements.

Contains: Wear-Flex Rubber Adhesive, dispenser gun, adhesive primer, buffing solution, wire wheel, surface conditioning disc, and utility knife.

- Forms a flexible bond that withstands chemicals, grease, oil, and water
- Remains flexible at low temperatures
- Automatic one-step mixing and dispensing provide an easy-to-use system with very little waste
- Tensile Strength: 1300 PSI
- Temperature Range: -40°F to 250°F (-40°C to 121°C)
- Working time: 1 - 2 minutes
- Functional cure: 4 hours

When used on rubber, Wear-Flex Rubber Primer (EG57574000) is required for proper adhesion. Not recommended for highway tire repair.

Container Type	Size	Type	Item No.	Pkg. Qty.
Plastic Box	7" x 10" x 15"	Non-Sagging Adhesive	1638634	1
	7" x 10" x 15"	Self-Leveling Adhesive	1638751	1
