

Fast Evaporating Aerosol Solvent Degreaser

Industrial-strength degreaser that evaporates quickly and leaves no residue. An excellent alternative to 1,1,1 Trichloroethane, CFCs, methylene chloride, or perchloroethylene. Non-corrosive to metals. Valve sprays in upright and inverted positions. Removes oil, grease, grime, lubricants, and tar from electrical contacts, electric motors, machinery parts, electronic equipment, and more.

- Quickly penetrates and removes soils from surfaces
- Evaporates completely, leaving no detectable residues on cleaned surfaces
- Formulated without Ozone Depleting Compounds such as 1,1,1-trichloroethane or chlorofluorocarbons
