

PROBLEM SOLVER

PROBLEM:

Additional costs can occur when using ordinary body solvents and degreasers.

- Most degreasers leave a residue behind that interferes with adhesion of primers and paints.
- Long drying time hurts productivity.
- Extra care is required to prevent damage to paint and plastic.

SOLUTION:

Acrysol® Auto Body Degreaser

- 100% virgin solvent formula leaves no film or residue.
- Dries fast to speed repairs.
- Evaporates completely and has no lingering odor.
- Removes road film, tar, and wax from body panels.
- Provides better adhesion of primers and paints.
- Won't harm most painted or plastic automotive surfaces.
- OEM recommended and approved.

P60170

P20005*

*Not available in Canada.

APPLICATIONS:

- Vehicle Maintenance
 - Detailing
 - Paint Preparation
 - Removing grease and gum from carpets

INDUSTRIES:

- Automotive
- Construction – heavy equipment
- Transportation – Truck

Auto Collision
