

# Technical Data Sheet

## Clean Zone™ Metallic Surface Cleaner

Cronatron™  
A LAWSON BRAND

### Overview

Clean Zone™ is a general-purpose degreasing and metal-surface cleaning agent for the removal of grease, oil and fluid deposits. Clean Zone™ wets the surface, penetrates oil and grease films and then suspends and washes away all impurities, leaving a clean, dry surface. A must for powder spraying and polymer applications.

### Features/Benefits

- Blasts away grease and grime
- Deep penetration
- Non-chlorinated
- Non-flammable
- Fast, complete evaporation
- No residue
- Handy aerosol container with no CFCs
- Excellent for electronics equipment

### Method of Application

Aerosol

### Identification

Labeled spray can

### Directions for Use

Shake well before using. Spray in a well-ventilated area. Hold can 10 to 12 inches from surface and spray with sweeping side-to-side motion. Allow 30 to 90 seconds to dry.

### Technical Specifications

Dielectric Strength: 35,000V/2.5mm  
Meets MIL-C-28809B and MIL-STD-2000
